

## Indiana Career Information System (INCIS) Premium Content

ESI provides INCIS at no cost to Indiana schools and organizations. In addition to the career information system, ESI makes available the following premium content through site licensing. Combined with INCIS' powerful portfolio system (My Portfolio) for accessing and storing information and assessment results, these additional components add to the value of the system and enrich the user experience. ### ***IDEAS Assessment***

IDEAS™ (Interest, Determination, Exploration and Assessment System) is a formal career assessment inventory published by National Computer Systems (NCS). Written at a sixth grade level, this assessment is appropriate for junior high/middle school students, high school students, and adults. Users respond to 128 items drawn from the Career Assessment Inventory (CAI) and receive a report organized around Holland types and 16 Basic Scales.

Using the IDEAS Assessment as a tool to explore occupational interest, users can learn

- How current interests are connected to occupations and course work and
- Which interest areas they may want to explore further

For sites that license IDEAS™, the interest inventory is available on ICIS in Spanish at no extra charge.

**Cost: \$150/per academic year**
